

Qantas Engineering

02 October 2014

To whom it may concern,

I have been involved with Permagard Aviation Services for the past two years. During that time they have been responsible for maintaining, and in some cases rejuvenating, the paint finish on 40 of our 737-800 aircraft. More recently they have been carrying out deep clean and disinsection services on our A380 aircraft.

I have found Permagard Aviation employees to be skilled and professional in their approach.

The Permagard management team are always available and respond quickly to any issues or special requests that may arise.

Regards

Peter Cawthorne
